SecretXperience is a **full-stack, modern marketplace** — identity-verified providers, token economy, booking flows, real-time messaging, discovery algorithms, and featured monetisation — all **live in production** today. Unlike every EU competitor (PHP directories from 2005), this platform is built on Next.js, Supabase, and Stripe with AI moderation, RLS data security, and a mobile-first experience. We are raising to grow, not to build.

A €12B EU market running on decade-old classifieds boards

PROVIDER PAIN POINTS

No professional, multi-country marketing platform
Visually dated sites with zero mobile experience
No booking management — WhatsApp & spreadsheets
No identity verification on either side
Cash-only payments, no records, no dispute resolution

CONSUMER PAIN POINTS

No reliable way to verify a listing is genuine
No unified search across categories & countries
Static grids with zero personalisation or discovery
No secure, discreet booking process
No availability information — endless phone tag

EU regulatory drift toward the **Nordic model** (decriminalise selling, restrict buying) increases demand for **documented, identity-verified platforms** — and raises compliance barriers high enough to eliminate unmoderated amateur competitors. The EU Digital Services Act compounds this pressure.

The Airbnb of EU adult services — trust-based, feature-rich, live today

● Identity Verification

Doc + selfie → admin review → verified badge. No EU competitor has this.

● Real-Time Messaging

Unread counts, read receipts, message search. Zero phone dependency.

● Booking Management

Request → confirm/decline flow with status tracking for both parties.

● Token Economy

5-tier packages. Providers spend tokens on visibility boosts. Creates lock-in.

● Ad Tier System

Spotlight (featured_until) · Première (premium) · Standard grid.

● Discovery Engine

12+ filters, swipe-to-save (/discover), Available Now badge, discreet mode.

● AI Moderation

Anthropic Claude pre-screens every listing. Human review for edge cases only.

● Mobile-First

2-col grid, photo slider, bottom nav, touch targets. Competitors are desktop-only.

● 8 Categories

Escorts · Companionship · Nightlife · Creators · Rentals · Hotels · Events · Shop

A massive market with no modern player

TAM — TOTAL ADDRESSABLE MARKET

€12–18 Billion

EU-wide online adult platform revenue across 27 member states

SAM — SERVICEABLE ADDRESSABLE MARKET

€1.8–2.4 Billion

Organised adult services marketplace, BE/NL/DE/FR/LU (125M adults)

SOM — YEAR 3 TARGET (0.5–1% OF SAM)

€9–24 Million ARR

5,000–15,000 active listings · token spend · featured boost revenue

MARKET TAILWINDS

EU **Nordic model drift** increases demand for compliant, documented platforms

OnlyFans effect — adult consumers conditioned to paying for digital access

EU DSA **compliance pressure** eliminates unmoderated competitors

Mobile penetration **>85%** across all target markets

Post-COVID normalisation of **digital intermediaries** for in-person services

Tech barrier: competitors need **12–18 months** just to replicate basic features

Seven streams · resilience by design

01

Token Packages

€9.99–€199.99. Providers buy tokens to activate listing tiers. Non-refundable. Primary revenue driver.

02

Featured Boosts

€29/7d - €79/30d. Stripe Checkout. Direct placement upgrade to Spotlight or Première tier.

03

Category Commissions

15% on rentals, hotels, events & shop transactions processed via Stripe Checkout.

04

CCBill Processing

12–18% fee on adult booking payments. Integration path built; live post-funding. Highest LTV stream.

STREAM	500 PROVIDERS	2,000 PROVIDERS	10,000 PROVIDERS
Tokens + Boosts	€10,000	€72,000	€350,000
CCBill + Transactions	€7,000	€40,000	€250,000
Shop, Events, Affiliates	€1,000	€7,000	€30,000
Total MRR	€26,500	€119,000	€643,000

06 — COMPETITIVE LANDSCAPE

Every EU competitor is a 2005 classifieds board

PLATFORM	TECH	VERIFICATION	BOOKING	TOKEN ECONOMY	MOBILE	MULTI-COUNTRY
SecretXperience ✦	Next.js / Supabase	✓ Full	✓	✓	✓ Optimised	BE NL DE FR LU

Escort.be	PHP / Legacy	✗	✗	✗	Partial	BE only
EasyGirl.be	Legacy	✗	✗	✗	✗	BE only
Hookers.nl	Legacy	✗	✗	✗	✗	NL only
AdultWork (UK)	Moderate	Partial	Partial	✗	Partial	Post-Brexit, no DSA
OnlyFans	Modern	✓	✗	✗	✓	Content only, no services

Positioning: SecretXperience is the only EU platform combining modern tech stack + identity verification + booking + token economy + multi-country reach. The gap between us and competitors is not incremental — it is architectural. Replicating this stack takes 12–18 months minimum and requires EU payment processor approval.

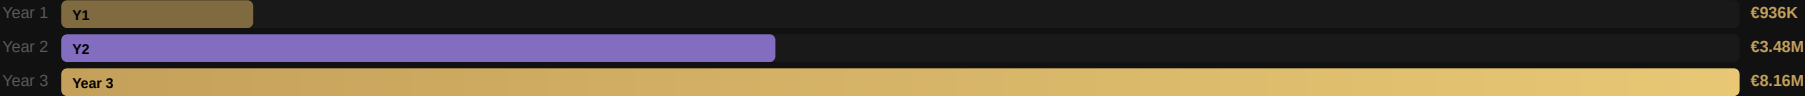

07 — FINANCIAL PROJECTIONS (3-YEAR)

Conservative growth to €8M+ ARR

Quarter	Providers	MRR	ARR Rate
Y1 Q1	250	€8,500	€102K
Y1 Q2	600	€22,000	€264K
Y1 Q3	1,100	€45,000	€540K
Y1 Q4	1,800	€78,000	€936K
Y2 Q1	2,500	€110,000	€1.32M
Y2 Q2	3,500	€155,000	€1.86M
Y2 Q3	5,000	€220,000	€2.64M
Y2 Q4	6,500	€290,000	€3.48M
Y3 Q1	8,000	€370,000	€4.44M

Y3 Q2	10,000	€470,000	€5.64M
Y3 Q3	12,000	€575,000	€6.90M
Y3 Q4	14,000	€680,000	€8.16M

YEAR-END ARR RUN-RATE

Key assumptions:

- PAC €15–40 · CAC €8–20
- Avg provider spend: €35/mo
- CCBill live Month 4
- Provider churn: 8%/mo
- Gross margin: 85%

At €8M+ ARR · 85% gross margin:

Conservative (5×): €40–45M

Base (7×): €57–60M

Optimistic (10×): €80–85M

Seed at €500K cap → potential 12–50× return

08 — TECHNOLOGY & MOAT

The tech is the barrier to entry

PRODUCTION STACK

Frontend	Next.js 13.5 App Router + TypeScript
Database	Supabase · PostgreSQL · RLS · pg_cron
Auth	Supabase Auth · Email + Google OAuth
Payments	Stripe Checkout + CCBill (pending)
Moderation	Anthropic Claude API (AI-first)
Hosting	Vercel · EU edge · auto-deploy

- 1

Identity Verification Pipeline

Doc + selfie → admin review → verified badge. No EU competitor has this. Creates legal accountability and trust.
- 2

Token Lock-In

Purchased tokens are non-refundable. Providers with token balances don't churn. Creates sticky revenue.
- 3

CCBill Relationship

Adult payment processing is gated by processor approval. New entrants wait 6–18 months. Once live, this is a significant barrier.
- 4

Data & SEO Compounding

Every booking, view, interaction improves recommendations. Domain authority and structured data compound daily.

Supply first · then flywheel

SUPPLY FIRST

Months 1–6 · Current Phase

Organic SEO: city + category pages (Brussels escorts, etc.)

Direct outreach on Instagram, Twitter/X, Telegram

Migration incentive: free premium tier for switchers

Target: 500 active providers

CONSUMER ACQUISITION

Months 3–9

Paid social (Twitter/X, Reddit) — males 25–54 in target cities

Affiliate SEO: adult review blogs + directories

Referral: consumers earn tokens for inviting providers

Target: 10,000 consumer accounts

MARKET EXPANSION

Months 9–24

DE and FR as primary growth markets (largest populations)

Localise UI to German and French

B2B offering: agency accounts with shared dashboard

1

2

3

Target: 5,000 active providers

PLATFORM FLYWHEEL

Month 24+

More providers → better experience → more consumers

Higher provider ROI → more token spend → more revenue

Consumer subscription tier €19.99/month

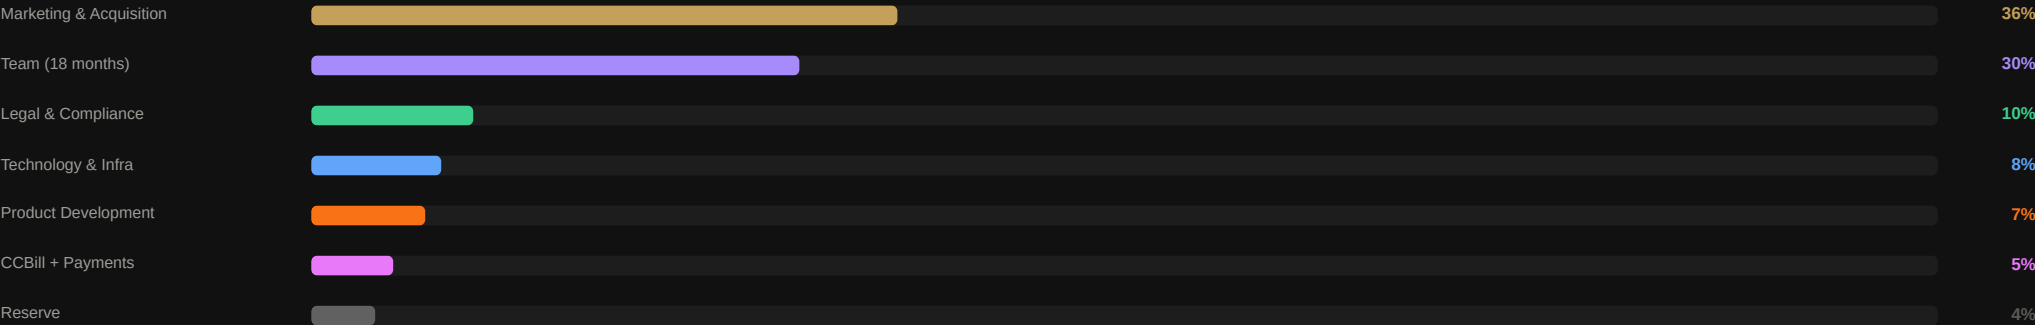

Target: Series A raise

4

10 — USE OF FUNDS & INVESTMENT ASK

€500K seed · clear path to Series A

€500K ALLOCATION

FUNDED MILESTONES

- Month 3

CCBill live · adult payment processing active
- Month 6

500 verified providers · €20K+ MRR
- Month 12

€60K+ MRR · Series A materials ready
- Month 18

€150K+ MRR · Series A at higher valuation

SEED ROUND TERMS

Instrument	SAFE or Convertible Note
Raise Amount	€250K min · €500K target

Valuation Cap	€3M – €5M pre-money
Discount	20% on Series A conversion
Min Ticket	€25,000
Target Close	60 days from term sheet
COMPARABLE EXITS	
· Eros STI (public) — €500M+ market cap · FriendFinder Networks — IPO at €300M+ · EU adult directories — 5–10× ARR acquisitions · Farfetch luxury marketplace model — 8–12× ARR	
Why this cap: Platform is live, not a prototype. Dev cost equivalent: €150–400K. Clear 8-figure ARR path. Multiple comparable 8–15× ARR acquisitions documented.
